LIBERAL LUNACY ([HTTPS://WWW.TEAPARTY.ORG/CATEGORY/LIBERAL-LUNACY/](https://www.teaparty.org/category/liberal-lunacy/))

(Gateway Pundit) – Earlier this week 4Chan users identified the Antifa “activist” who beat a Trump supporter over the head with a BIKE LOCK causing a major cut on the man’s head.

The Antifa terrorist is Professor Eric Clanton.

Professor Eric Clanton teaches “ethics” at Diablo Valley College.

The victim Sean Stiles is pressing charges against Eric Clanton over the brutal attack that was captured on video.

(<https://www.yespatriot.com/collections/t-shirts/products/liberalism-is-a-mental-disorder>)

Via Jack Posobiec:

JackPosobiec - Charges Filed Against Antifa Professor Eric Clanton

NOT ONE FAKE NEWS MAINSTREAM OUTLET HAS REPORTED ON THIS BRUTAL BEATING!

The list includes:

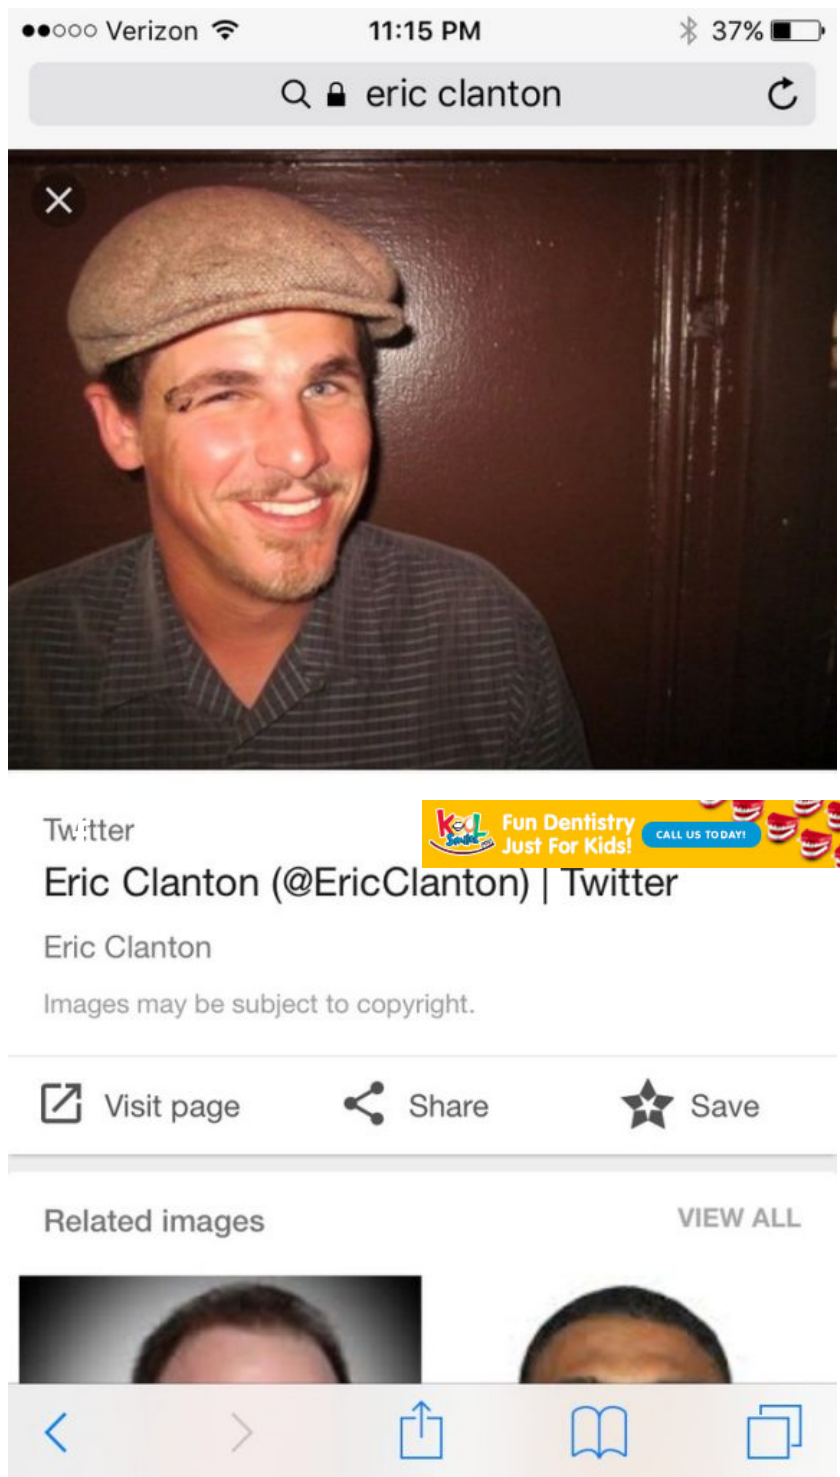

- * New York Times
- * MSNBC
- * CNN
- * Washington Post
- * Politico

A Trump supporter got his head cracked open with a bike lock at a rally for the president and the media totally ignored the story and ignored that a leftist professor is the assailant.

THIS IS WHY NO ONE TRUSTS THE LIBERAL MAINSTREAM MEDIA!
THEY LIE!

From our earlier post:

Diablo Valley College professor Eric Clanton has been unmasked by a group of online free speech advocates. Utilizing the concept of crowdsourcing, /pol/, a message board hosted on 4Chan, was able to figure out who exactly assaulted a pro-1st Amendment demonstrator . . .

Enter professor and violent, domestic terrorist Eric Clanton. Watch him hit a Trump supporter over the head with a bike lock which left him profusely bleeding from his head.

HERE IS FOOTAGE OF THE ASSAULT:

Trump supporter smashed in the head with U-Lock by masked Antifa ...

Clanton is a professor of philosophy at Diablo Valley College.

Clanton allegedly was a student at SFSU; not a surprise that he got his education in Liberalville, USA.

He is known to rant to his students about anarchist tactics . . .

AnTiFa suspect Eric Clanton works for Diablo Valley College.

What is most amazing about the unmasking of Eric Clanton is the level of dedication and time spent by random Internet users to track down the violent criminal . . .

/pol/ was able to turn themselves into an intelligence gathering agency and to great effect (as they've done before with Shia LaBeouf).

The following tweets grant further incite into this story:

Posting from a throwaway.

I live near Berkeley and have been involved in some of the recent protests where I wore a mask and supported the Antifa side to keep fascists off campus, but after seeing what these nazis have done to out one of our own I'm getting scared for my own safety.

These guys found out his full name, address, place of work, education, about a million photos of him and even what car he drives, they even found out his teaching schedule and what room he'll be in at what time. I just spent 5 minutes on (that site) and they're talking about getting someone to drive to his house and throw a brick through the window, or raiding the next class he teaches.

I know for a fact that his employer has been getting spammed with calls and emails asking to have the poor guy fired.

How can we feel safe? The guy who got outed was wearing a mask the entire time just like I was and these fucking nazis superimposed his face and cross analyzed a bunch of shit to identify him. If they were able to do it that easily, dox this guy completely and are now harassing him IRL, how can we prevent stuff like that?

The poor girl with the dreadlocks who got punched in the face was posting about going to the event when she got found so that made it a little easier but this guy posted LITERALLY nothing and they found out his entire life's story from a few pictures of his eyes above a facemask.

We need to make serious changes or soon there won't be anyone left to protest.

SHUT DOWN ANTIFA

We must have this violent group labeled a DOMESTIC TERRORIST ORGANIZATION. Only then can we protect President Trump and our fellow conservatives.

By doing this we can effectively shut down their bank accounts, force social media outlets to pull their propaganda pages and under the USA Patriot Act Sec. 806 can their assets be seized so that they cannot continue their reign of terror.

Sign the Petition and Support the Tea Party in our fight to keep conservatives safe and terrorists like Antifa off our streets!

Antifa aren't risting fascism, they're practicing it. We haven't seen anything like this in the West since the 1930's, when Brownshirts burned books, banned conservative speakers from college campuses, and ran around in gangs beating up those who disagreed with Nazism. Liberals are the new Nazis.

Repeating what you hear again and again on TV is not a great idea. Brownshirts were formed as security for speakers in response to constant attacks and shootings committed by communists. The same kind of violence (though today's seem too afraid to use guns thankfully) today's communists are doing here. Saying the people nazis fought against are somehow nazis for doing what communists always have is stupid.

While they are more akin to the Spartacists (in fact they probably have Rosa Luxembourg posters all over their dorms, the dweebs) I can see a few SA similarities like the homoeroticism even amongst straight members as well. It's not as accurate but I can see where the mistakes come into play. They really need to teach about the Spartacist uprising and the hedonism of Weimar more often to the general public. Their opposition is also not exactly like the SA, they're a bit less professional. It's more like the Kapp Putsch and Spartacists deciding to give it a go at the exact same time and running into each other.

Michael Nazwisko Exactly, Hitler had to actually kill the leaders of the Brownshirts to consolidate power in 1934

Looks like he's a member of BAMN, which is a cult.

Suddenly striking an innocent person (who was clearly not a threat to, nor was he threatening, anyone), without the slightest provocation or warning ... is, in and of itself, an unwarranted and criminal assault!

But to have knowingly and maliciously done so with what was turned into a dangerous, and (undeniably potentially) deadly, weapon (such as a bike lock), cannot reasonably be thought of as anything short of attempted murder!

Wearing a pro-Trump shirt is surely not a justification for this terroristic act on the part of this liberal/progressive ethics professor! And justice demands that in addition to being sued out the wazoo; he also needs to be brought up on attempted murder charges as well!

By the way, the same holds true if the situation were reversed; and the liberal terroristic ethics professor were similarly attacked by a terroristic Trump supporter!

In Legal parlance, its called "assault and battery with a deadly weapon with intent to do harm." Pray. Amen. God Bless America and all Americans. Read a Bible. NKJV psalm 128 (God's Law). We pray the person assailed does not suffer any lasting effects of this insane act of physical violence.

This doesn't surprise me at all. Lately a lot of horrible thiings have came out of the vile mouths of so called professors. Like lynching our President or beheading him. These people are violent and basically cowards. They sneak up behind their victims and bash them with something intended to hurt. So glad this nut job was found out. I hope he goes to jail for a long time.

As a retired Calif college professor i can tell you the brainwashing done By leftwing professors has gone on for decades. A friend was hired to teach at the college i taught at; the hiring committee bluntly told him, "If we had known you were conservative we would never have hired you. These Marxist fanatic have the bully

Pulpit to intimidate their students along with the power of the grade & if a student challenges the prof the student gets a failing grade. It is a given that every college professor follows Marx/Alinsky or they don't get tenure. The

every college professor follows Marx/Aminsky or they don't get tenure. The administrators are fine with that. Campuses want "diversity" but no diversity of ideas or opinions. Straight out of Orwell.

Professor Eric Clanton teaches ethics. It appears his ethics is, beat and or kill if you must, all those who oppose him! Excatly like the ethics of a true fascist-communist-socialist-demoncrat! There is the ethics that God is all about, then there is the ethics Satan is all about! Chose which ethics you will follow. Hopefully his ethics will garner him some jail time this time!

Time to start locking there sorry asses up now that we have THE professor boss who is just another POS. Time for these colleges to REALLY check their teachers backgrounds. And now for TRUMP and his people to start building the WALL so as to stop the flow of the boarder crossings and cust the Federal \$\$ that is going to these colleges. Not all are bad but you have to start somewhere.

I think Trump should have the National Guard in any of these rallies and if anybody comes there was a black hooded mask and a black hoodie they should be arrested, as people who were up to good do not cover their faces and their heads course I could also say this about many of the jackboots like cops will do the same! If anybody I was on the up and up they do not need to cover their face or their head. I think they should be arrested because they are a popular no good that's a har if anybody I was on the up and up they do not need to cover their face or their head. I think they should be arrested because they or up to doing evil. If you're not ashamed of what you're doing or you're not afraid to let people see that you are against what people are protesting about and you're not going to commit acts of aggression but you need not cover up your face in your head.

I agree! It's illegal in Florida to walk in public with a hoodie on and/or face covered! That should be standard everywhere at this time. I don't think it is entirely enforced though.

Shouldn't he be arrested for assault and battery? The injured person should press charges and sue the college for millions in damages. This will deter professors of hate.

Most professors are communist/socialist leftist anarchists. They spew their rhetoric on naive students as if it's the truth. They often badger students who voice opposing views, and will even resort to failing a student who is vocal with opposing views.

Guard your kids well, because you may send your children to schools, colleges, and universities one way, but many end up totally brainwashed to believe a totally different way that is anti-everything that made our country prosperous, top 5 in education in the world, the largest producing and industrial nation. We the people are the ones who "need to make changes". We need to change rioting kooks and communists into corpses. A bloody revolution has been planned by the kinky-headed quisling and his drunken lesbian protege and paid for by Nazi kapo and currency manipulator Soros, and it is now getting underway as their various frauds and canards intended to stop the Trump restoration collapse one by one. This will be stopped by bullets smacking into the diseased and drug-sodden bodies of rioting satanists, socialists and sodomites. We must fix them, as was said of Rosa Luxemburg, who led the bloody but ultimately unsuccessful Spartacist uprising in Germany after World War I, so that there is not even a smell left of them.

The fact the guy posting as "throw away" on the thread that he needed a way to feel "safe" tells you:

1) Antifa is such a candy ass outfit they are not up to date on methods, techniques and tools available to doxx a cupcake wearing a halloween outfit at a street fight easily.

2) He is talking about increasing "Opsec" while at the same time exposing Antifas fears and weaknesses in the open.

3) Antifa needs a "safe space" in order to carry out cowardice, otherwise...it aint gonna happen.

Where is George Soros with bail out money when you need him?
