For the past year, the self-described "anti-fascists" known as Antifa [https://www.therebel.media /_moldylocks_learn_who_weaponized_berkeley_s_antifa_girl} have been on the rise. Now they are rapidly becoming America's most dangerous domestic terrorist organization.	
But who are they? Where do they come from?	
Why do they all wear black?	
Who are all these masked kids [https://www.therebel.media /in_berkeley_last_weekend_we_took_the_culture_back]and why are they attacking us in the streets every time Trump supporters just want to have a rally?	
They are getting more and more violent. It's only a matter of time before someone is killed at one of these riots.	
On April 19, Antifa released new propaganda on their site, calling for the murder of Trump supporters.	
WATCH my investigation into this group's background, their tactics, and what can be done to stop them before it is too late.
